### 4. FIRST-AID MEASURES

Routes of Exposure	First Aid Instructions
Eye	Flush eyes with water for at least 15 minutes, holding the eyelids apart. Get medical attention.
Skin	Wash skin thoroughly with soap and water. If irritation or other symptoms develop, get medical attention.
Inhalation	Remove to fresh air. If breathing is difficult, have qualified personnel administer oxygen. If breathing has stopped, administer artificial respiration. Get medical attention.
Ingestion	If conscious, rinse mouth with water. Never give anything by mouth to an unconscious or convulsing person. Get medical attention.
Most important symptoms of exposure	May cause eye irritation. Prolonged skin contact may cause irritation. Vapors or mists may cause mucous membrane and respiratory tract irritation.
Other	None known.
<b>Note to Physicians (Treatment, Testing, and Monitoring):</b> Treatment of overexposure should be directed at the control of symptoms and clinical conditions.	

### 5. FIRE-FIGHTING MEASURES

<b>Suitable Extinguishing Media:</b>	Use carbon dioxide, foam, water spray or water fog.		
<b>Fire Fighting Procedures:</b>	Use water to cool fire-exposed containers.		
<b>Specific Hazards Arising from the Chemical:</b>	Vapors are heavier than air and may travel to ignition source and flash back. Emits toxic fumes under fire conditions. Closed containers may explode due to pressure build up when exposed to extreme heat.		
<b>Precautions for Fire Fighters:</b>	Firefighters should wear full emergency equipment and approved positive pressure self-containing breathing apparatus.		
<b>Recommended Protective Equipment for Fire Fighters:</b>			
EYES/FACE	SKIN	RESPIRATORY	THERMAL
			

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions, PPE and Emergency Procedures:** Provide explosion-proof ventilation. Avoid contact with skin, eyes or clothing. Avoid breathing vapors. Wear appropriate protective clothing as described in Section 8. Eliminate all ignition sources.

**Environmental Precautions:** Prevent spill from entering sewers and water courses. Report releases as required by local and national authorities.

**Methods and Materials for Containment and Clean-up:** Contain and absorb spills with inert material and place into a suitable container for disposal.

### Recommended Personal Protective Equipment for Containment and Clean-up:

EYES/FACE	SKIN	RESPIRATORY	THERMAL
			

## 7. HANDLING AND STORAGE

**Precautions for Safe Handling:** Avoid contact with eyes. Avoid prolonged skin contact. Avoid breathing vapors or mist. Wash thoroughly after handling. Use with adequate ventilation. Do not expose to direct sunlight.
